MAE 289B: Real Analysis with Applications
T/Th 5:00–6:20
Room: Center, Room 202

Instructor: Prof. William McEneaney
Office: 1809 EBU 1
Phone: 858-822-5835
Email: wmceneaney@ucsd.edu

Content: We will discuss topics in Real Analysis. This will include measure theory and standard spaces used in analysis for development in modern engineering. The choice of topics will be informed by relevance to applications.

Texts: H.L. Royden, Real Analysis.
