The authors have found a typographical error. The sentence “Using a 10% tolerance for error, we obtain a more well-defined criterion  $K \lesssim 0.1 \times 2/\beta x^{*2}$ ” on page 3, right-hand column should read “Using a 2.5% tolerance for error, we obtain a more well-defined criterion  $K \lesssim 0.025 \times 2/\beta x^{*2}$ .” This correction does not affect the conclusions of the work.
